eral committee of the Jessers occlebration met Friday evening to receive the reports of the several committee on the sider and recommend changes in the sent laws bearing upon the State tita, will have its first meeting in office of the Adjutant General at 10 cold. The state of the Adjutant General at 10 cold. The state of the Governor in time this in existence reveral than but it is hoped that its report. The made to the Governor in time this in corporate its recommends and suggestions in a special safe to the legislature.

Safe to the legislature work is the subject of the safe to the test of the legislature.

Safe to the legislature work is the subject of the safe to the test of the legislature.

Safe to the legislature work is the subject of the safe to the test of the legislature.

Safe to the legislature work is the subject of the safe to the safe to the day. It was suggested that on the evening of April 13th a mass meeting the day. It was suggested that on the evening of April 13th a mass meeting the beard at the University; that distinguished citizens be invited to make addresses; that a grand display of fireworks be made to the University grounds, and that "Monticello" be illuminated by colored lights and bondires; also the surrounding mountains. It is further suggested that on Saturday, the 14th, by Invitation, the President and his Cabinet and members of Congress and other distinguished citizens, including the Governor of Virginia and chief Virginia officials, as well as members of the State Legislature, the Governors of various States and others, be brought by special trains; that these trains be met by citizens and fraternal organizations, and that pilgrimages be made

# RECENT FOOTBALL GAME.

RECENT FOOTBALL GAME.

The recent game at Richmond has been the subject of much comment in college during the past week. Shibley, the hero of the game, has been universally praised by all, and his entering the lecture hall Saturday morning was the occasion of vociferous applause. All the boys played great ball, and the whole University is happy over the result. The team has shown what it was capable of doing, and finished the season with a good record, changing what, from early appearances, looked to be a bad year.

Now that the football season is over, athletics will take a short rest, allowing men to do undisturbed work for intermediate examinations. Practice for the baseball season will soon begin, and the prospects for a good team are very bright.

pastor of Second Presbyterian Church

Frantie Carnefix and Kate s. realismed as teachers in the cols. Miss. Carnefix, who is or of an educational chart, for the Johnson Publishing of Richmond. Miss Stone recount of her health.

We A. T. Smith died last A years hie was a native N. C. She is survived by a one of whom is Mrs. P. d. of Petershung meeting of the coal compliate with decided here-type. The coal with nomes but the coal compliate with decided here-type. The coal with nomes but the coal compliate with decided here-type. The coal with nomes but the coal compliance of the accused has not been proven."

This verdict was reached after three to the effect: "That the guilt of the cacused has not been proven."

This verdict was reached after three to the stimony from both sides.

At the end it narrowed down to a question of veracity between preacher and woman. The ministers said they did not believe guilt proven. One minister, Rev. W. R. Motley, of Thirtieth Street Christian Church, went further and declared that he thought the innocence of the accused was fully estimated to this effect: "That the guilt of the cacused has not been proven."

# TOWN OF SUFFOLK

A North Carolinian Burned to Death in His Room.

Will Apply for Liquor Liceuse-The

(Special to Virginian-Pilot.)

Suffolk, Va., Dec. 9.-Thomas Draper 40 years old, was burned to death. Draper lived in Gatesville, N. C. A day or two ago he had an apoplectic fit. He was subject to fits. During the convulsions Draper fell into his sitting room fire. The hair and whiskers were burned off, and the cheek roasted to a brown crisp. Some one on a lower floor of the building heard a noise and pulled the sufferer from the red hot torture. It was too late.

TWO LICENSES WANTED.

County Judge Kilby will convene the December term of court Monday,

There will be two liquor applications to dispose of-one man wants to sell whisky at Nurney's Siding and anon Sycamore street, Suffolk. The latter application will be met with a petition from residents.

A jury was summohed to try a small civil case, which has since been settled outside of court.

THE CHURCHES TO-DAY.

THE CHURCHES TO-DAY.

These will be Rev. J. F. Love's subjects at the Baptist Church Sunday:
"The Sealing of the Spirit" and "The Strong Young Man." The latter is a special discourse to young men, whose presence is asked.

At the Presbyterian Church, Rev. John Stanly Thomas will discuss "The Power and Beauty of Language" and the "Worth of Human Nature." The program underlining reads:
"A cordial welcome to all people. Seats free. The pastor is alyaws glad to meet strangers and visitors."
Rev. J. O. Atkinson, of Eton College, N. C., will preach Sunday morning and evening at the Christian Church. The pastor, Dr. Stanly, is out of town.

## A ROBBER LANDED.

Lewis Gayle, charged with robbing Phenias Gwaltney's house, was to-day brought here from Norfolk by Hurri-cane Branch. He will have a hearing some day next week—in time for the next grand jury.

### NO VERDICT YET.

The remains of Thomas Bolton, the aged man who was found dead beside the Southern railway track, were sent to Frankin to-day for burial. That was in pursuance of a telegram saying that a daughter had deposited expenses with Agent Gardner at Franlin.

The Coroner's jury has not prepared

The Coroner's jury has not prepared a verdict yet. Sheriff Baker, who summoned the jury, thinks that Bolton was not killed by a train, but may have fal-len and sustained bruises in a fit of

# WALTER RICE DEAD.

Walter Rice, aged about 21 years, who formerly lived in Suffolk, died yesterday at Arringdale, Va. He had a yellow chill. He was taken ill in South Carolina some days ago. The burial took place to-day in Cedar Hill Cemetery, Suffolk. Rev. J. F. Love conducted the services.

# RAY BRIGGS HOME.

This morning Ray Briggs, his mother, Mrs. J. M. Briggs, and sister, Miss Jen-nie Briggs, arrived from Baltimore. They were driven home at No. 12 Pin-ner street.

A CALLED COMMUNICATION OF SUPFOLK LODGE, No. 20, A. F. and A. M., will be held at its hall to the town of Suffolk on MONDAY NIGHT at 7:30 o'clock for work in the First Degree, Transient brethren cordially in-By order W. M. H. WOODWARD, Secretary.

HAVING BEEN APPOINTED CITY Ticket Agent for the SOUTHERN RAHLWAY, I can now sell LOCAL AND THROUGH TICKETS

to all points on that road as well as a all points via Norfolk, washington an Baltimore. See me before you leave.

Respectfully.

# PETERSBURG.

SURVEYING WATER POWER-THE

TOBACCONISTS-LUMBER.
Petersburg, Va., Dec. 9.-Colonel C W. P. Burgwyn, of Richmond, has within the past few days made a survey of the water power of the Appomattox river here, and says that the power is very valuable. It is understood that the Southside Railway and Development Company is shortly to make some costly improvements at the locks.

THE TRUE VALUE OF.EACH NEW DISCOVERY

### THE TOBACCONISTS.

THE TOBACCONISTS.

For the past month or more Mr. David Dunlop, one of the largest exporters of manufactured tobacco in this county, has been overrum with orders, and it has been necessary for a large force of hands to be kept at work day and night. During the past week Mr. Dunlop's hands have turned out from 100,000 to 150,000 pounds of manufactured tobacco, which is to be exported.

This has been a very busy week with the tobacco warehouse men of Petersburg, and it is estimated that fully one million pounds of loose tobacco has

million pounds of loose tobacco has been sold here. The price obtained averaged about six dollars per hundred pounds. The highest price was \$36 per hundred pounds.

AWAITING SHIPMENT.

AWAITING SHIPMENT.

The Richmond, Petersburg and Carolina Railroad Company has increased their freight rates on lumber about twenty-five per cent.

There is over a million and a half feet of lumber at City Point awaiting shipment to northern ports. Owing to the wharves at the Point being so crowded with lumber, the Norfolk and Western with lumber, the Norfolk and Western Railroad Company has been requested by its agent at the Point not to send any more loaded cars of lumber there for the present.

The wharves here are also stacked with lumber, awaiting shipment.

# To Sam'l Wheeler Worthington

(On his marriage, Dec. 6, 1899.) May your new state be one of joy, Success attend your life; There's nothing half so good, my boy, As a true, loving wife.

She, whom you've taken to your breast A flower, sweet and rare, Will bring to you all happiness, Be her your tenderest care,

Not only with caresses, mind, A woman's heart is won; A loving trust they ask of us, A trust to lean upon.

See this you give her, let her keep The sole key to your heart; Admire her wardrobe and her hat, And all her winsome art. HERBERT L. WORTHINGTON

## HOW FILIPINOS FIGHT.

WHAT A TENNESSEE OFFICER THINKS OF THE WAR.

(By Telegraph to Virginian-Pilot.) New York, Dec. 9.—Lieutenant Stacker and seven members of the First Tennessee Volunteers, arrived here today on the steamship St. Louis from

day on the steamship St. Louis from Southampton. They are on their way to their homes in Clarksville, Tenn., after having seen some months of active service in the Philippines.

"The Philippine soldiers fight like demons," said Lieutenant Stacker. "They seem to have no fear of death, and they do not fear danger, but their fighting is not the kind we expected. They will fight and then scatter to fight again. Their mode of warfare is much like that of the Boers.

"The troops, in my opinion, will be chasing Aguinaldo for the next 263 years, and then never catch him. But he is simply the figurehead, There are others behind him. Some of the Filipinos in Manila are friendly, and some there are who will work for the government and even give the military authorities information.

# MOST IMPORTANT EVENTS IN MEDICAL HISTORY

# DURING THE NINETEENTH CENTURY.

AS A PREVENTIVE OF DISEASE.

1846 DISCOVERY OF EITHER AS ANÆSTHETIC.

1860 DISCOVERY OF COCAINE.

1879 DISCOVERY OF THE BACILLUS OF TYPHOID FEVER.

1882 DISCOVERY OF THE BACILLUS OF CONSUMPTION.

1883 DISCOVERY OF THE BACILLUS OF DIPTHERIA. 1892 BEHRING'S DISCOVERY OF ANTITOXINE OF DIPTHERIA.

1895 DISCOVERY OF HYOMEI.

1896 FIRST CASE OF CONSUMPTION CURED BY HYOMEI. The discovery of the first two, ether and cocaine, was of value to the medical profession ONLY in surgery, and has been of no benefit, whatever, in pre-

# THE DISCOVERY OF THE BACILLUS OF TYPHOID FEVER.

however, was one of the greatest importance, for it proved conclusively that this was a germ disease and chabled the physicians to treat it as such. As a result of such treatment the death rate from typhoid fever has been reduced from 40 to 4% per cent, during the past twenty years.

## THE DISCOVERY OF THE BACILLUS OF DIPTHERIA.

was another valuable one, but as this bacillus could only be reached through the blood, none of the germicides known could be used with effect. It was not until 1892 when Behring discovered the antitoxine of diphtheria that any progress whatever was made in successfully treating this dread disease, since that time the injection of antitoxine-directly into the blood has had a marked effect upon the death rate from diphtheria, and its universal use will undoubtedly in time stamp out this diease.

### THE DISCOVERY OF THE BACILLUS OF CONSUMPTION

was the most important of all, for it completely changed the whole ideas of the medical profession regarding this disease. Heretofore consumption had always been considered hered tary; now, it is known to be infectious. The proof that uption was a germ disease necessitated an entire change in the method of treatment. It was found that these germs lodged in the air passages and could only be reached through the air we breathe. As soon as this became known, efforts were made to force some of the liquid germic'des into these air passages; but Nature had erected at the entrance of the bronchial tubes an impassable barrier to multive of any kind. Sprays and vapors in every form were tried; but as in diphtheria, there was only one way of reaching the disease germs, through the a'r we breathe, and no dry air germicide was to be found. This state of affairs existed for twelve long years, the death rate increasing from \$5,000 to 250,000 yearly. In 1895 Booth discovered "Hyomel," the first and only dry air germicide ever found. Later in the year he introduced it to the protession, and 1896 the first case of

# CONSUMPTION WAS, CURED,

Mrs. E. A. Smith, of Holyoke, Mass., being advised by her physician to test it after she had been given up by all the noted physicians in the country. She was brought to Boston and placed in a room where only Hyome could be inhaiced in the air; and at the end of two weeks she returned to Holyoke, but continued to use the inhaler for five months. This was three years ago; she is now in robust health and has no return of the disease. No trace of consumption bacillus could be found after the first month's treatment. This was the first case of genuine consumption ever known to have been cured; since hundreds have been saved. To-day there is not a city in the United States where Hyomei has been used that will not show a decrease of, at least, 34 per cent, in the death rate from consumption in the past two years, yet it is not the

# NUMBER OF CONSUMPTIVES CURED,

which shows the great value of the new discovery, but rather in its prevention of the disease. Eight out of every ten cases of consumption are found to origimate from catarrh, bronchitis and pneumonia, the air passages become inflamed and the bacillus of consumption inhaled in the air we breathe finds logment there; they increase by the thousands and soon invade the lungs where it has always been found impossible to reach them until Hyomel was discovered. Catarrh Bronchitis, Pricumonia and Coughs cannot exist where Hyomel is used; thus it is within the power of anyone to prevent consumption. Of course there have been hundreds of imitations of Hyomel; but their life was short. To prevent

# NECESSARY TO REMEMBER

that there is BUT ONE DRY AIR GERMICIDE, just as there is BUT ONE antitoxine for diphtheria. It is known as "Hyomel." This is the only treatment for these diseases ever guaranteed to cure.

CAUTION .- Beware of Imitations of Hyomel Containing Poisonous Ingredents. CAUTION.—Howere of imitations of Hyome: Containing Poisonous ingred ents.

Hyomel is sold by all druggists or sent by mail.
